Practice Setting				

## Practice Setting Definitions

**Community Pharmacy** - Retail setting where drugs and related products are distributed primarily through direct face-to-face patient contact.

**Hospital and Other Health Care Facility** - Hospital or other health care facility, including rehabilitation facility, mental health facility and residential care facility.

**Association / Government / Para-Governmental** - An organization or government that deals with regulation, advocacy, policy development, program development, research and / or the protection of the public, at a national, provincial / territorial, regional or municipal level (includes military services and correctional services).

**Community Health Care** - A community-based organization, which may be the first point of contact for patients, offering a range of primary health, social and / or other non-institutional-based services, including pharmaceutical care.

**Community Pharmacy Corporate Office** - The head office of a community pharmacy chain or equivalent enterprise directing community retail pharmacy operations.

**Group Professional Practice / Clinic** - A community-based group professional practice / business or clinic organized around the delivery of primarily onsite health services, including pharmaceutical care, by a group of health professionals. Patients typically come to the professionals' location to receive services. Other support staff may also be involved, but the health professionals are the focus of service provision.

**Health-Related Industry / Manufacturing / Commercial** - A health-related industry whose focus of activities is not the direct delivery of health care services but rather health-related products, services and / or sales (medical device companies, pharmaceutical companies, insurers, etc.)

**Other Community-Based Pharmacist Practice** - Pharmacist practice, not otherwise classified, that focuses on the delivery of onsite or offsite community-based, direct patient care pharmacy services.

**Other Pharmacy** - Setting in which retail drugs and related products are distributed to patients through other than direct face-to-face contact.

**Post-Secondary Educational Institution** - A post-secondary institution (university, college or equivalent institution) with a primary focus on the delivery of education.

**Other** - Place of employment not otherwise identified.
