

## Acne (mild): Skin & Mucous Membrane Agents

• Adapalene	• Glycolic acid
• Azelaic acid	• Salicylic acid
• Benzoyl peroxide	• Tazarotene
• Clindamycin	• Tretinoin
• Dapsone	• Trifarotene
• Erythromycin	

## Allergic rhinitis: Antihistamines

• Azelastine	• Fexofenadine
• Bilastine	• Loratadine
• Cetirizine	• Olopatadine
• Cyproheptadine	• Rupatadine
• Desloratadine	

## Allergic rhinitis: Corticosteroids

• Beclomethasone	• Fluticasone
• Budesonide	• Mometasone
• Ciclesonide	• Triamcinolone

## Candidal stomatitis: Antifungals

• Nystatin	
------------	--

## Conjunctivitis (bacterial, allergic or viral): Antiallergic Agents

• Antazoline	• Ketotifen
• Bepotastine	• Lodoxamide
• Cromolyn sodium (Sodium cromoglycate)	• Olopatadine
	• Pheniramine

## Conjunctivitis (bacterial, allergic or viral): Antibacterials

• Erythromycin	• Polymyxin B
• Fusidic acid	• Tobramycin
• Gramicidin	• Trimethoprim

## Conjunctivitis (bacterial, allergic or viral): Vasoconstrictors

• Naphazoline	• Phenylephrine
• Oxymetazoline	• Tetrahydrozoline

## Dermatitis (atopic/eczema, allergic or contact): Anti-inflammatory Agents

• Beclomethasone	• Fluocinolone
• Betamethasone valerate	• Hydrocortisone
• Clobetasone	• Prednicarbate
• Crisaborole	• Triamcinolone
• Desonide	

## Dermatitis (diaper): Antifungals

• Ciclopirox	• Miconazole
• Clotrimazole	• Nystatin
• Ketoconazole	

## Dermatitis (diaper): Anti-inflammatory Agents

• Desonide	• Hydrocortisone
------------	------------------

## Dysmenorrhea: Nonsteroidal Anti-inflammatory Agents

• Acetylsalicylic acid (ASA)	• Ibuprofen
• Celecoxib	• Ketoprofen
• Diclofenac	• Mefenamic acid
• Flurbiprofen	• Naproxen

## Gastroesophageal reflux disease (GERD): Antacids and Adsorbents

• Alginate acid	• Calcium carbonate
• Aluminum hydroxide	• Magnesium salts

## Gastroesophageal reflux disease (GERD): Histamine H<sub>2</sub>-Antagonists

• Cimetidine	• Nizatidine
• Famotidine	• Ranitidine

## Gastroesophageal reflux disease (GERD): Proton-Pump Inhibitors

• Dexlansoprazole	• Omeprazole
• Esomeprazole	• Pantoprazole
• Lansoprazole	• Rabeprazole

## Hemorrhoids: Skin and Mucous Membrane Agents

• Dibucaine (Cinchocaine)	• Phenylephrine
• Esculin (Aesculin)	• Pramoxine
• Framycetin (Neomycin B)	• Zinc sulfate
Hydrocortisone	

## Herpes labialis: Anti-inflammatory Agents

• Hydrocortisone	
------------------	--

## Herpes labialis: Antivirals

• Acyclovir	• Famciclovir
• Docosanol	• Valacyclovir

## Impetigo: Antibacterials

• Bacitracin	• Mupirocin
• Fusidic acid (Sodium fusidate)	• Ozenoxacin
• Gramicidin	• Polymyxin B

## Insect bites and urticaria: Antihistamines

• Bilastine	• Diphenhydramine
• Cetirizine	• Fexofenadine
• Chlorpheniramine	• Hydroxyzine
• Cyproheptadine	• Loratadine
• Desloratadine	• Rupatadine

## Insect bites and urticaria: Antipruritics and Anti-inflammatory Agents

• Benzocaine	• Lidocaine
• Calamine	• Menthol
• Camphor	• Pramoxine
• Desonide	• Zinc oxide
• Hydrocortisone	

## Musculoskeletal sprains and strains: Analgesics

• Acetaminophen	
-----------------	--

## Musculoskeletal sprains and strains: Nonsteroidal Anti-inflammatory Agents

• Acetylsalicylic acid (ASA)	• Ibuprofen
• Celecoxib	• Ketoprofen
• Diclofenac	• Mefenamic acid
• Flurbiprofen	• Naproxen

## Nausea and vomiting of pregnancy: Antiemetics and Antinauseants

• Dimenhydrinate	• Promethazine
• Diphenhydramine	• Pyridoxine
• Doxylamine	

## Oral aphthae: Anti-inflammatory Agents

• Triamcinolone	
-----------------	--

## Pinworms/Threadworms: Anthelmintics

• Mebendazole	• Pyrantel pamoate
---------------	--------------------

## Tick bites, post-exposure prophylaxis to prevent Lyme disease: Antibacterials

• Doxycycline	
---------------	--

## Urinary tract infection (uncomplicated): Urinary Anti-infectives

• Fosfomycin	• Sulfamethoxazole
• Nitrofurantoin	• Trimethoprim

## Vulvovaginal candidiasis: Antifungals

• Clotrimazole	• Miconazole
• Fluconazole	• Terconazole
