

Marvin Ng

Pharmacist

Equilibrium – let's restore it and elevate our profession.

I am Marvin Ng, a dedicated pharmacy professional with a PharmD and MBA and over a decade of experience supporting our community. I am seeking your vote to bring a unique blend of clinical expertise, national industry insights, and business acumen to OCP as a Pharmacist Board Director.

My goal is to collaborate with you and all stakeholders to advance our common goals. My observations indicate that we need to focus on three key areas:

- **Transparency:** Advocate for policies that demonstrate our commitment to public safety, professional integrity, fiscal responsibility, and the sustainability of pharmacy business. The development and decision-making process will be fair and transparent.
- **Equity:** Prioritize initiatives that empower pharmacists to deliver safe, inclusive, and effective patient care to a diverse population. Recognize the interdependence of the profession and the industry, ensuring that both thrive together through strategic, sustainable partnership.
- **Accountability:** Foster a collaborative environment that enables us to adapt to the rapid pace of change and evolving public needs. Set clear expectations for quality patient care and hold all parties accountable for delivering the level of care that Ontarians deserve.

I am the right candidate deserving of your vote. I have a proven track record of leading teams within one of Canada's largest banners to develop disease-state based initiatives that improve patient care. I have also successfully secured funding for initiatives that supported pharmacies throughout the pandemic. Most importantly, I continue to practice in community pharmacy, so I understand the challenges you face daily.

Together, we can build a stronger, more resilient pharmacy community prepared to meet the challenges ahead. I am committed to representing your interests and driving our profession forward.

Thank you in advance for your support.
